Re: Monitoring wells on Watts Ave.,
Rockton Township

Dear Mr. Wengrow:

As per my previous request (a copy which is attached hereto), please advise as to your intentions in placing monitoring wells at the above location. I have been advised by Mr. Bardo that these wells would be dug sometime this winter, however to date there has been no activity on your agency's promise to do so.

As you know the matter of ground water pollution in the Rockton - Roscoe area is a very critical issue in terms of the populations health and welfare. Therefore I am urgently renewing my previous request to begin a monitoring process in an area that has been identified by your agency as hazardous to local residents. I look forward to your response and immediate attention to this matter.

Sincerely,

Jack R. Cook, Jr., Sup.
Rockton Township

Re: Monitoring wells on Watts
Ave. located in Rockton Township

Dear Mr. Bardo:

Recently we have been contacted by concerned citizens regarding well and ground water pollution, in the Watts Ave. area, located in Rockton Township. Several citizens have expressed concern that their wells have been polluted by various industrial establishments in the area. I would like to take this opportunity to request monitoring wells in this area, so as to monitor the level of pollution in these wells. I understand that there are provisions for the E.P.A. to put in these wells at no cost to residents or local governmental units.

I would appreciate your immediate attention to this request, and would be willing to discuss this at your earliest convenience.

Sincerely,

Jack R. Cook, Jr., Sup.
Rockton Township
